

Aberdeen Blue Chip International Portfolio, Series 10

A World of Opportunity in Quality Blue Chips

International investing presents a wide range of opportunities for investors, Guggenheim believes. Expanding a portfolio to include exposure to both developed and emerging economies with different growth prospects and economic drivers than the U.S. may offer investors the potential for enhanced diversification and attractive long-term growth. While investing internationally comes with risks, Guggenheim believes investing in quality-focused blue chip companies offers the potential to lessen the risk that can exist beyond U.S. borders.

To offer investors access to the growth potential of large international blue chip companies, Guggenheim has partnered with Aberdeen Standard Investments Inc. ("Aberdeen"), a global investment company, to create the **Aberdeen Blue Chip International Portfolio**. Using rigorous fundamental analysis, including quality and price filters, the Aberdeen Blue Chip International Portfolio seeks to deliver a high conviction portfolio of blue chip international stocks with attractive growth attributes.
